

classic**Palette**™

There's so much that's new with Palette. And so much that you already know.

Clean, elegant, and very, very powerful, classic Palette is a thoroughbred. With 150, 250 or 500 channels, two playbacks and 32 submasters, classicPalette will eat up complex shows, easily – elegantly.

There's even an entry-level classicPalette console, with 100 channels, 16 subs, and all the power of Palette.

## Features

- PaletteOS Windows XP Embedded operating system
- High-resolution Graphical User Interface with Mouse
- Up to 2000 cues per show

- Tracking or whole cue operation
- DMX in macros
- Wired and wireless focus remote options
- Windows Off-line Editor
- Dual memory playbacks
- Standard memory desks feature 32 Submasters with 10 pages of sub assignments

**Introduction**

Strand’s new Palette consoles build on the most successful lighting control operating system to bring you PaletteOS™, a high-resolution point/click graphic environment to unleash your creativity and speed up workflow. PaletteOS harnesses the power of Windows Embedded XP to create a powerful windows off line editor.

Palette is powerful – with up to 500 channels and amazing automatic focus group controls that will slash your programming time. Palette has a powerful web browser that

lets you configure and monitor your network and interact directly with Strand’s award-winning C21 dimming systems. Right there on the console screen.

And Palette is an elegant and highly functional lighting console, leveraging industry-standard technologies to make it robust and future-safe. Screen layouts and network communications use XML, making it easy to communicate with other cool products (and not just ours) over the network.

Palette’s brain is a rugged industrial PC that could be swapped in seconds if you every needed to . Which you wouldn’t. Probably.

Palette has a generous 40GB hard drive, or you can save your shows anywhere on the network. You even get a shiny new USB key for show storage over sneaker net.

Oh, and you can even network Palette OS with your existing Strand 300 and 500 series consoles, so no one gets left behind!

- 91800 classicPalette Basic Memory Console with 100 channels
- 91803 classicPalette Memory Console with 150 channels
- 91804 classicPalette Memory Console with 250 channels
- 91805 classicPalette Memory Console with 500 channels
